

BIG IDEA AT PETIT ST. VINCENT

► Swim with the fishes — and possibly Jean-Michel Cousteau — at a new dive center at Petit St. Vincent Resort. Opened in late 2014, Jean-Michel Cousteau's Caribbean Divers center is owned and operated by Cousteau and his long time colleague Don Santee.

Designed to accommodate all levels of divers, guests can receive diving instruction and PADI certifications, participate in guided underwater snorkel and SCUBA excursions with an on-staff marine biologist and hike the island with a naturalist. Cousteau and his team view the center as a step toward protecting the region's rich marine and terrestrial ecosystems while entertaining and educating visitors.
